

Short CV of Alexandra Messerli

2011- MPhil in Polar Studies from the University of Cambridge. Thesis: *Identifying spatio-temporal patterns of supraglacial lake drainage on the Western margin of the Greenland ice sheet (GrIS) using remotely sensed imagery.*

During my MPhil I also completed a project to determine snowline position throughout the ablation season on the Western margin of the GrIS using Landsat 7 ETM imagery.

2010 - BSc in Geography from the University of Edinburgh
